

## Onboard to ECU's eduroam network – Windows Devices

*Faculty, Students and Staff*

Onboard (connect) to the eduroam network by authenticating with your **registered** PirateID and installing a certificate to your wireless device/s. Eduroam access must be renewed every four years. For personal laptops only! Screenshots taken using Windows 10 OS, but works for Window Vista, 7, 8.0, and 8.1 as well.

This document will outline the **Single SSID (directly connecting to eduroam)** method for connecting to the **eduroam** network.

**IMPORTANT!** If you are already connected to **ecu-wifi**, navigate to **<http://onboard.ecu.edu>** and **SKIP TO STEP 2.**

### **Off Campus:**

If you are attempting to onboard from a location off ECU's campus, open a browser and navigate to **<http://onboard.ecu.edu>**.

**You may then proceed to step 2.**

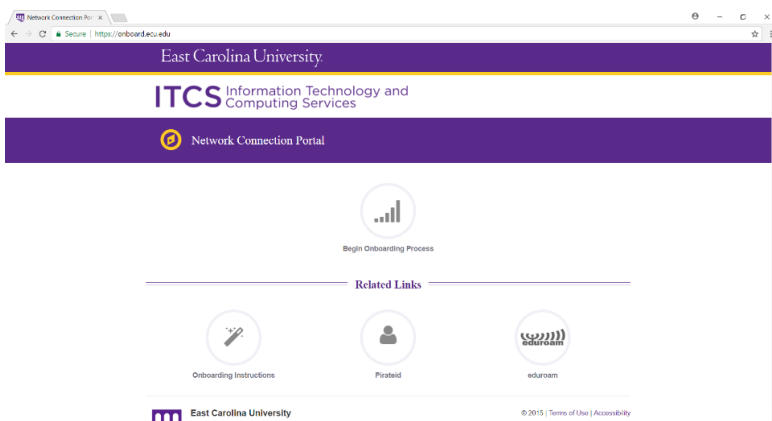

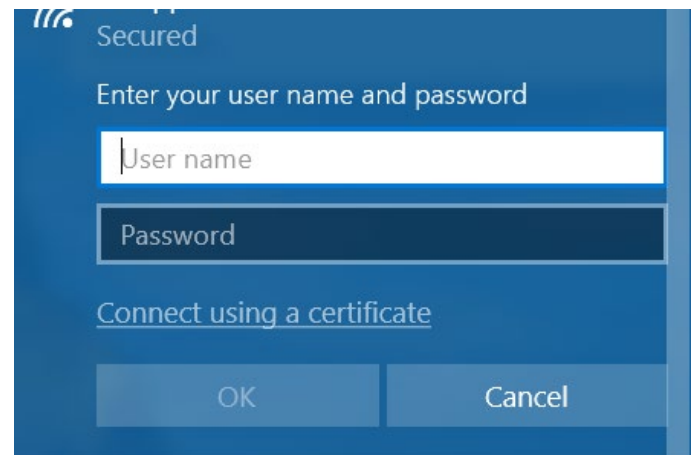

### **Step 1.**

Click the Wi-Fi button at the bottom-right corner of the screen.

Select the **eduroam** network. You will be prompted for credentials.

Enter your PirateID and passphrase. Click **OK**.

Open a web browser and navigate to **<http://www.ecu.edu>**. You will be redirected to the onboarding web portal.

### **Step 2.**

After the **Network Connection Portal** screen loads, click **Begin Onboarding Process**.

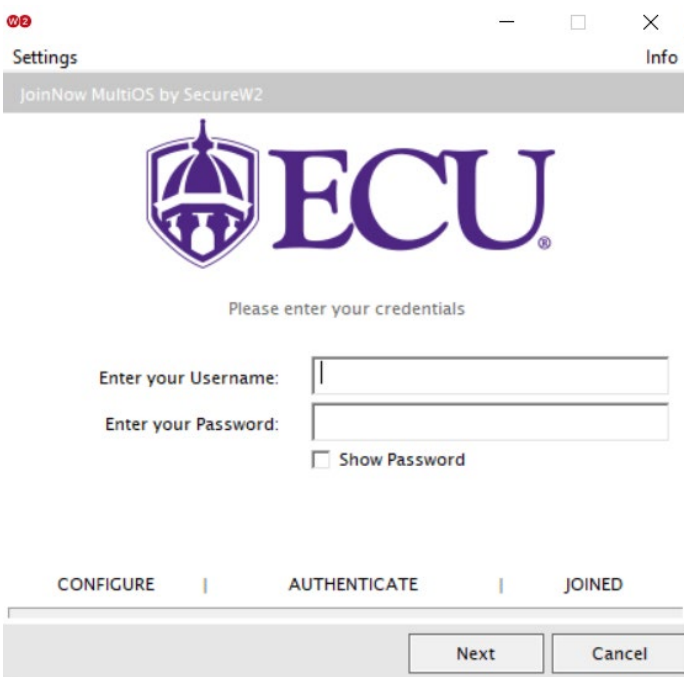

**Step 3.**

Click **JoinNow**.

The SecureW2 wrapper should automatically download.

Navigate to your Downloads folder and open the wrapper.

Windows will ask you if you want to allow SecureW2 to make changes. Click **Allow**.

**Step 4.**

Once the wrapper launches, you will be prompted for credentials.

Enter your PirateID and passphrase, and click **Next**.

**Step 5.**

A certificate will be issued to your device, and you should now be fully connected to the **eduroam** network.

Click **Done**.

**Note:** You may need to turn your WiFi off and on again to connect to eduroam. To do so, click the WiFi button at the bottom-right corner of the screen. Click the blue WiFi button at the bottom-left corner of the pop-up, and once it's greyed out, click it again.
